Bordos.ArtWorks:

László Zsolt Bordos (also known as Bordos.ArtWorks) is a 3d artist living in Budapest, Hungary. In year 2000 he started to show his abstract 3d animations as a VJ, performing in the underground party culture of Budapest. He studied at the Hungarian Academy of Fine Arts in Budapest and at MediaLab UIAH (University of Art and Design) in Helsinki.

With his early 3d-vjing (2001-2004), his participation to huge size architectural slide projections (2002-2005) and his outrageous video projections and 3d mapping projects (2006-present), he became a pioneer of the genre.

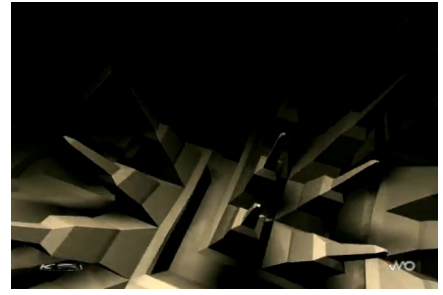

Cooperating with other artists since 2010, he started to run the projects under the name 'Bordos.ArtWorks and Invited Artists', which became internationally recognized as eminent representatives of video projection mapping.

Since 2014 Bordos is focusing again on solo art projects, installations and scenery projections for theaters and operas.

Most important projects:
